Electrons!

Healing.

THOMAS PRINTZ' PRIVATE BULLETIN. A BRIDGE TO FREEDOM PUBLICATION.

December 22nd. 1957. VOL. 6. NO. 38.

My Beloved Children:

How often have members of the human race heard those two important words "know thyself". Allow Me now to help you, each dear one, to know yourself and, in this knowing, to bring healing, harmony and the lightness of joy into your life.

The physical body is made up of very tiny particles of light Substance which the world of men has chosen to call "blectrons". These electrons are emited from the Body of God and are loaned to the individual lifestream to create a garment of flesh in the "Image and Likeness" of The Holy Christ Self.

The Holy Christ Self projects a Light pattern of Itself into the Universal Light Substance of this physical world, and into the center of that pattern the Holy Christ Self projects the cohesive power of Love referred to as The Three-fold Flame. Then this Three-fold Flame, from the Universal Light Substance around It, draws the electrons to make the flesh body or physical form.

The electrons are in constant motion, swinging round and round in the body, and if you had a high enough type of microscopic vision you would see that what appears to be a leg or anmarm is a constant sea of moving Light encircling in an orbit, and, like the tide of the sea, being "allowed to go so far and no further" than the periphery of its particular border. These circling electrons form what We refer to as the "members" of the body.

The marvel of man is the cohesive power of Love that keeps the electrons year after year circling in their individual orbits and the composite whole making the hand or the head or the arm or the organ, no electron losing its identity or getting caught into another member.

The vibratory action of the whole body is determined by the KEY NOTE of the lifestream.

Mankind's vibratory action is away below its natural harmony and the electrons in all four bodies are moving a great deal more slowly than is their natural expression. The slower they move - the denser the body and the mind. The quicker they move the lighter the body. In the Ascended Masters vehicles the electrons vibrate so rapidly that they are like the propellor of a rapidly moving plane - invisible to the physical sight.

The process of evolution through attention to the Light quickens the pace of the electrons in every atom and cell of one's being, and when one's attention is on the Light, the whole harmony of his individual solar system is increased beyond all outer measures of speed.

HEALING

In the case of an injured or diseased "member", the more Light consciously directed into the electrons of that "member", the more rapid will be the healing. A broken member, for instance, means that the natural orbit of the electronic life in that member has been temporarily shattered, and a new core of Love must be established through the main shaft of the bone, when the electrons are again drawn in harmony around this core.

You would be surprised, dear ones, what singing in love to these little lives in a broken bone or diseased member would do for you.

Know, children of My Heart, that My understanding and My healing and My Love are yours forever to draw upon.
